PROFESSIONAL EXPERIENCE

Cyferd, Remote, Spain

Front-end Developer, January 2021 – Present

- Played a key role in the front-end team, working on the development, maintenance, and refactoring of a data-centric no-code application.
- Served as a crucial component in the enhancement and refactoring of a comprehensive suite of applications, which included a client app for web and mobile, a web-based builder app, and a shared business logic library. This work ensured user-friendly and seamless interactions across diverse devices and functionalities.
- Managed multiple code repositories, reviewed pull requests, and maintained high standards of code quality for robust, dynamic application solutions.
- Contributed constructive feedback on the application design and assisted in identifying and resolving UX bugs, facilitating a more accessible and user-friendly experience.

Akimad, Remote, Spain

Full Stack Development Lead, September 2019 – July 2021

- Led architecture design and technical strategy for various full-stack projects, emphasizing JavaScript/TypeScript React, React Native, Node.js, Express, SQL, and MongoDB.
- Managed and mentored development teams, conducting code reviews and ensuring adherence to best practices.
- Oversaw planning and execution, coordinating with stakeholders to align technical solutions with business goals.
- Facilitated sprint planning meetings, driving the adoption of agile methodologies and continuous improvement.
- Provided strategic input on application design and functionality, prioritizing optimal user experience.
- Handled CI/CD pipelines using Github Actions and Gitlab Runners, configured servers with Docker, and performed server/infrastructure setup tasks.

Akimad, Madrid, Spain

Full Stack Developer, July 2018 – September 2019

- Developed full-stack applications for web and mobile platforms using JavaScript/TypeScript React, WordPress, PHP, React Native, Node.js, Express, SQL, and MongoDB.
- Served as a key contributor to many projects starting from scratch, ensuring robust and scalable solutions.
- Collaborated with cross-functional teams to ensure seamless integration of new features and enhancements.
- Provided extensive feedback on functional application design and addressed production-level UX bugs to ensure high accessibility and promote a positive user experience.

Freelance, Remote, Spain

Front-end Developer, September 2017 – July 2018

- Conducted various web development freelance projects involving widespread front-end tools including JavaScript, HTML/CSS, React, and WordPress.
- Implemented encapsulated React components to ensure responsiveness and a low latency customer experience.
- Performed SEO optimization and performance optimization to enhance website visibility and efficiency.
- Participated in the UI/UX design process to create intuitive and engaging user interfaces.
- Collaborated with clients to identify viable projects and convert existing client requests into executable tasks.
